

Spine Tools Event Series

The EU-funded project Mopo is pleased to present the Spine Tools Event Series, offering current and potential end-users the opportunity to explore practical tutorials, real-world case studies, and hands-on demonstrations.

N.B. Most events will take place online, with a few in-person workshops. Attendance at all webinars/events is not required; participants can subscribe to each event and join any session of interest. Events subscription will be announced in due time.

PROGRAMME

Date	Type	Topic	Main speaker
March			
24	Webinar	Getting started with Spine Toolbox: a workflow management tool for energy system modelling and beyond	Antti Soininen, VTT
31	Webinar + user meeting*	New SpineOpt input data structure	Topi Rasku, VTT
April			
21	Webinar	Pan-European dataset and data processing tools for energy system planning	Matti Koivisto, DTU
May			
05	Webinar + user meeting*	Getting started with SpineOpt energy system optimization tool: installation, verification and simple system tutorial	Tars Verschelde, KU Leuven
21	In-person event (Riga)	Open-source Modelling Tools for Energy Planning (workshop with limited place. <i>Information and registration here</i>)	RTU
June			
02	Webinar	Using interoperable INES datasets and the latest features in SpineOpt	Arttu Tupala, VTT / Diego Tejada, TNO
July August			
Summer break			

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Climate, Infrastructure and Environment Executive Agency (CINEA). Neither the European Union nor the granting authority can be held responsible for them.

September			
01	Webinar + user meeting*	Medium-Level SpineOpt Tutorials: Exploring operational optimisation features	Topi Rasku, VTT
15	Webinar + user meeting*	Advanced SpineOpt tutorials	Manuel Marin, Energy Reform
October			
07	Webinar	Spine H2-IRL: Hydrogen case study for Ireland	Jody Dillon, Energy Reform
20	Hybrid Workshop (KU Leuven)	Spine Tools in Practice: Scenarios, Data and Investment Pathways for Energy Planning. <i>More information here</i>	Mopo Consortium
November			
10	Webinar	Baltic case study	Karlis Baltputnis / Diana Zalostiba, RTU
24	Webinar	European case study	Alvaro Porras, EPRI Europe
December			
01	Webinar	Industrial case study	Kira West, TNO
15	User meeting	User meeting	TBD

** Some of the webinars go along with a user meeting that dedicates some time to help actual users solve issues of real implementation.*
